

Resource catalogue

How to use:

This is a catalogue of resources developed by DVConnect and VictimConnect for other services, responders and community members. The items contain a range of information on domestic, family, sexual and interpersonal violence. They are designed with a range of audiences and purposes in mind.

Each item features a brief description of the item to help you identify the resources most relevant to your service, clients or community.

Each item has a unique code. To request items, please email mail@dvconnect.org with the code and the approximate number of resources you require.

Please note: we distribute these resources for free as part of our mission to provide all Queenslanders with a pathway to safety from violence and interpersonal trauma. We rely on generous community donations to continue to offer these items. If you are able to contribute to this mission, we would appreciate your support. Donate at dvconnect.org/donate or contact us at mail@dvconnect.org to discuss a partnership.

DVConnect standard rack card

A simple flyer featuring the crisis line numbers of DVConnect Womensline, DVConnect Mensline and Sexual Assault Helpline. This resource also has a QR code link to the website.
